Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over the UK patent application 2,021,371. The reference discloses the invention substantially as claimed, namely a support 10 having a widen support structure placed in a enclosure 64 with vertical sides wherein gravel 66 may be used to fasten the support within the enclosure and a flower is fastened to the support structure; see Figures 1, 3 and 5, page 1, lines 10-12 and page 2, line 121 through page 3, line 9. The reference further discloses that the support structures or anchors can be densely packed in the enclosure; see page 3 lines 108-129. However the reference does not disclose the support structure over all of the available area with the enclosure. It would have been obvious to one of ordinary skill in the art to provide the support structures/anchors with plants in the article of the reference over substantially all of the available area within the enclosure depending on the desired decorative effect.

Allowable Subject Matter

3. Claims 1-20, 23, 24 and 25 are allowed.
